REISSUE APPLICATION DECLARATION BY THE INVENTOR	Docket Number (Optional) 56162.000489
---	--

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 5,982,807, granted November 9, 1999 and for which a reissue patent is sought on the invention entitled High Data Rate Spread Spectrum Transceiver and Associated Methods,

the specification of which

is attached hereto.

was filed on 11/09/2001 as reissue application number 10/005,483  
and was amended on 11/09/01; 08/28/02; 10/23/02; 12/02/02; 06/19/03; 03/05/04; 11/09/04; and 09/29/05.  
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

by reason of a defective specification or drawing.

by reason of the patentee claiming more or less than he had the right to claim in the patent.

by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

This reissue application is based on an error in that the applicant and applicant's attorney failed to appreciate the full scope of the invention and thus claimed less subject matter than could have been claimed. The issued claims contain limitations that are not essential for practicing the broad teachings of the invention disclosed in the application. Thus, this reissue application is intended as a broadening reissue.

In one example of this error, in issued patent claim 2, Applicant employed means plus function language. The new claims presented in this reissue application avoid the use of means plus function language and thus broaden the scope of the invention.
